

TECHNICAL STAGECRAFT CLASS

Have you ever wondered what all those sliders and knobs do on the sound board? And how to make the lights work? If you have ever wanted work backstage then you need to know what that stuff is. Come to the Technical Stagecraft Class and gain a basic understanding of the technical aspects of theatre production -- Scenery, Lights, Sound and Props, while getting hands on experience with actual equipment used in creation of scenery, props, lighting and sound effects. Wear sturdy shoes and clothes for painting.

Technical Stage Craft Dates:

July 11th –July 15th

Time: 9:00-4:00

Cost: \$150 Materials Fee

Grades 5-8

Bring a lunch - Snack will be provided

Extended Day Care is available before and after for a fee.
