

WLS KEEN ON GREEN

WLS Keen on Green is coming to the Big Dig!

Look for the WLS KOG center at the Big Dig and special receptacles for recycling **batteries** and **cell phones**. Bring your old batteries and cell phones and we will properly dispose of them at a local e-waste center. In addition, helpful "Green" information will be available with tips on how you can better reduce, reuse, and recycle.

The classroom tally for the month May will be on display so check out which elementary class recycled the most bottles and cans. Currently, 4B is in the lead for April earning a free dress day. Who will be our next winner?

Thank you for your continued efforts to make WLS a more responsible, innovative, and contributing school and community partner.

The WLS Green Team
